

CRISIS RESPONSE TEAM

**GROWING WITH
GRACE AND PURPOSE**

Strengthening our Foundation and Expanding our Infrastructure

WHAT WE DO

DISASTER RELIEF / IMMEDIATE RESPONSE

Over the last few years natural disasters and the threat of major crisis have seemingly increased all over the United States and around the world. God's Pit Crew is ready, trained, and prepared to respond.

BUILDING PROJECTS

God's Pit Crew has taken on many projects following a disaster, and new projects are scheduled every year. It brings our volunteer team tremendous joy to provide such blessings to people in desperate need.

LOCAL DISTRIBUTION

We are committed to making a difference in our own communities. Since our inception in 1999, we have distributed millions of pounds of food and supplies. We also serve an average of 180 local nonprofit agencies each year..

BLESSING BUCKETS

One of our main priorities is to meet the needs of people immediately after disaster strikes. A Blessing Bucket provides essential life-sustaining goods to people who have been displaced or who are in need after a disaster strikes.

OUR MISSION

With God's Help and Direction, to bring
HOPE, HEALING, and RESTORATION
to hurting people in times of crisis.

OUR HEART

For the last several years, God has stirred the hearts of God's Pit Crew's Founders and leadership team to strengthen our foundation and continue to expand our infrastructure. We are reminded that this is not a race. This a generational journey and this ministry belongs to **Him**. The staff, volunteers and our donors are honored that we **get** to be a part of what He's growing here, during our lifetime.

God's Pit Crew has been afforded an awesome privilege to own and operate an expanding fleet of trucks, trailers and equipment that we use to help remedy dire situations for hurting and hopeless people. We also own a 200,000 square-foot building on North Main Street that we call home. Without our donors, our people, facilities, tools, equipment, and fleet, God's Pit Crew's work would cease. Our qualified team has an enormous responsibility of maintaining the facility and the fleet that God has entrusted to us.

God's Pit Crew's ultimate goal is to continue to strengthen our infrastructure and expand our response territory to enable this ministry to increasingly grow and continue to pour out hope and help to hurting people for generations to come. Our building is in desperate need of a new roof. The original roof has served this facility well over the last 60-plus years, but it is now failing. Our qualified team of staff and volunteers are also in desperate need of having a safe and workable space to maintain our large fleet of 71 pieces of trucks, trailers and heavy equipment. Our goal is to save money so more resources can be poured into the people that we serve. At present, we are using buckets during every rainfall to protect the people, machinery, and relief supplies that occupy our facility. We're also having all fleet maintenance outsourced, because there isn't an adequate space to do the work ourselves. This has resulted in huge annual expenses for God's Pit Crew.

OUR REASON

Just since January of this year, God's Pit Crew's facility has been a place of storage and protection for:

- 28 Tractor-Trailer loads of relief supplies that have been delivered to disaster victims across the USA
- 8,688 Completed Blessing Buckets that we have distributed to disaster victims across the USA
- 6,456 Blessing Buckets that are ready to be distributed when needed
- 1,200 Play Pails that have been distributed to children who have lost everything in a disaster
- 384 Play Pails that are completed and ready to be distributed when needed
- Over \$500,000 in Blessing Bucket supplies that are ready to fill 27,000 empty Buckets worth \$125,000
- 1.5 Million pounds of supplies that have been distributed to other nonprofit agencies (number will increase)
- Five homes that have been framed inside our facility. Those homes have now been built, furnished, and given to five disaster victim families at no cost to them
- Over 800 volunteers who are projected to exceed a combined total of 100,000 hours of service by the end of 2022

OUR ROOF IS MUCH MORE THAN A ROOF!

An aerial photo of our 200,000 square-foot Distribution Center and Hope Hauler Lot, where all of God's Pit Crew's tractor-trailers and equipment is kept.

Just since January of this year, God's Pit Crew's fleet of trucks and equipment have...

- Kept 17 Volunteer Truck Drivers safe as they left their families and journeyed across the nation to help disaster victims
- Traveled nearly 75,000 miles to deliver hope, healing and restoration to hurting disaster victims during their time of need. This number is increasing daily
- Moved mountains of destroyed homes, personal belongings, destroyed vehicles and damaged trees for approximately 80 victim families trying to recover after a disaster
- Cut thousands of deadly trees threatening people's lives and property after a disaster
- Comforted weary and tired teams of Volunteers by having a shower trailer to recover after long days of hard work and a place to do laundry while away from home
- Delivered five complete houses and all of the furnishings to build sites for disaster victim home rebuilds

A new Truck Garage will maintain the safety and security of our #1 asset; our people, as much as it is to maintain our trucks, trailers and equipment!

OUR **SOLUTION**

God's Pit Crew is launching a \$2.5 Million Capital Campaign for the completion of a new roof and an 80x100 foot semi-truck garage.

In 2019, a piece of property adjacent to our facility became available. For decades, the Northmont Exxon thrived in the community as they offered fuel, vehicle maintenance, a wrecker service, and a junk yard. After the passing of the beloved owner Sonny Pierce, the property sat idle. God's Pit Crew longed for this property because it was positioned perfectly to our existing headquarters and truck lot. When the opportunity became available to acquire the property, a leap of faith was taken and the purchase was officially made.

After God's Pit Crew took ownership, our team began working to fulfill the mission of renovating the existing service station building and to pave the lot that would finally remedy our staff, volunteer and visitors parking dilemma.

NOW it is time to step out in faith, once again, and begin work on a new roof, as well as a truck maintenance garage project.

A site plan and rendering of the 80x100 foot garage, that will house GPC's Transportation Department, has been completed.

Roof Proposal and Quotes have also been obtained for the roof replacement project. The average quote was for \$860,000 with an expected increase of nearly \$93,000 by the end of this year because of manufacturer's price increases.

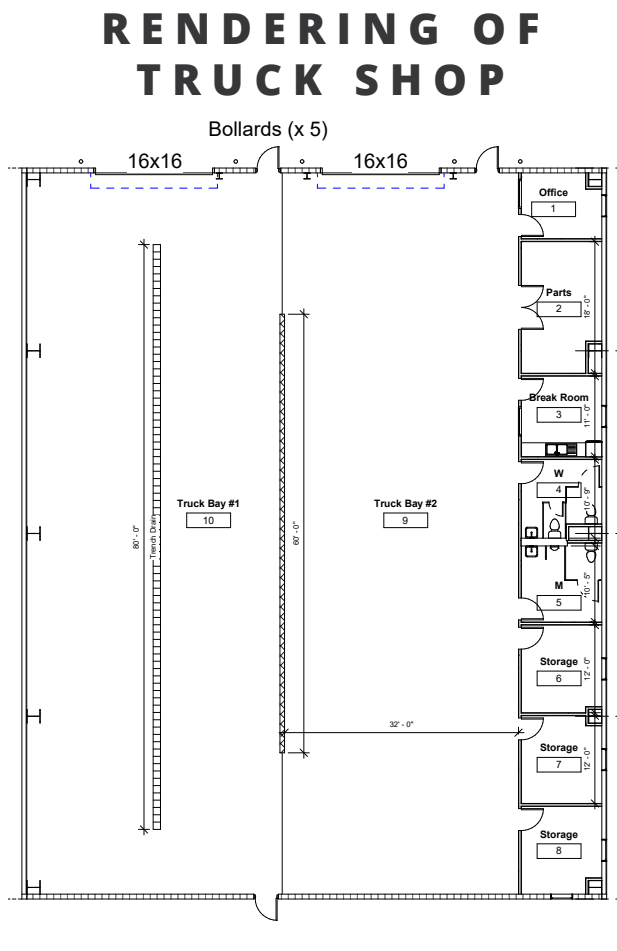

This is an architect's rendering of the 80x100-foot garage that would be built on the property for GPC's Transportation Department.

THE PROGRESS

What has taken place so far...

- As of June 2022, GPC has raised approximately \$300,000 toward the completion of the truck garage project. This capital campaign is ideal to make donations to memorialize a loved one. An anonymous donor gifted \$225,000 in memory of his late wife and to help get this project started. These funds have enabled us to have a site plan and other preliminary work completed so the building project can officially begin in the near future
- We've begun prepping the land at the garage site to complete all of the preliminary requirements before the actual build can begin
- We have removed 28 outdated HVAC units on our facility's roof to be recycled. This is in preparation of a new roof installment
- We are actively searching and applying for grants for the completion of these projects
- We are sharing with people about the need to strengthen our foundation so the ministry of God's Pit Crew can carry on forever

ROOF QUOTE OBTAINED

God's Pit Crew received several quotes for the roof replacement. The average roof quote is approximately:

\$860,000

Quote:

Name: God's Pit Crew

Address: 2499 N Main St, Danville, VA 24540

Description of Services:

Preparation:

- Conduct one pass with the dry-vac to remove most of the unregulated, non-embedded stone and dirt from the built up roof.
- Work in conjunction with God's Pit Crew staff to cover the holes from the HVAC units after God's Pit Crew staff removes them. Covering approximately 25 resulting holes in the roof is figured into this quote.
- Inspect the substrate for damage and repair as necessary (an additional charge would apply).

Installation:

- Mechanically fasten ½" High Density (HD) EnergyGuard™ Polyiso Insulation (ISO) over the entire roof surface fastened with Drill-Tec™ #12 screws in the pattern and quantify specified by GAF, through Drill-Tec™ 3" Galvalume steel plates.
- Mechanically fasten 60-mil white EverGuard® TPO per GAF specs.
- Install 24-gauge steel coping on the approximately 140' of parapet walls. Color: White.
- Install new 24-gauge steel coping on any HVAC unit curbs when possible. Color: White
- Apply GAF MajorSeal and accessories on HVAC units that don't meet the minimum 8" curb requirements to avoid exclusions from the warranty.
- Install 3" x 3" steel drip edge on the perimeter of all roofs. Color: White.
- Install factory-made pipe collars and corners.
- Install new TPO-coated drains.
- Install all applicable accessories.

Clean Up:

- Dispose of all debris.
- Gather stray nails.

Total investment: \$860,000. We expect approximately a \$45,000 manufacturer's price increase in Q3 and another \$50,000 price increase in Q4.

Estimated Start Date: Upon delivery of material (likely Q3 or Q4)

Estimated Project Duration: 8-12 weeks

GIVE.

LEAVE A LEGACY.

Continuing the gift of HOPE for generations to come.

God birthed God's Pit Crew in 1999 and He has enabled this ministry to grow, exponentially, since that time. The help and hope that you have helped provide to thousands of hurting people every year should never stop.

You now have an opportunity to sow into the strengthening and expansion that is taking place. Leave your legacy by securing multiple generations the gift of hope, healing and restoration and help a hurting and ever-changing world.

GIFT AMOUNT	# OF GIFTS NEEDED	CUMULATIVE TOTAL
\$500,000	1	\$500,000 <i>Naming Option for Garage</i>
\$225,000	1	\$725,000
\$150,000	2	\$1,025,000
\$75,000	4	\$1,325,000
\$40,000	8	\$1,645,000
\$20,000	16	\$1,965,000
\$10,000	32	\$1,785,000
\$5,000	64	\$2,285,000
\$1,000	100	\$2,385,000
\$500	230	\$2,500,000

Percentages above are provided by an independent auditing firm.

THERE ARE MANY WAYS TO EASILY AND SECURELY GIVE A GIFT:

- Checks payable to God's Pit Crew *sent to 2499 North Main Street, Danville, VA 24540*
- Credit Card donations can be securely processed by visiting www.godspitcrew.org/donate
- Gifts of appreciated securities (stocks, bonds and mutual funds)
- Charitable Trust giving
- Planned estate giving to be designated to God's Pit Crew
- Memorial gifts to honor the memory of a loved one

(Your method of giving should be earmarked as Capital Campaign Project)

Please use the enclosed envelope, visit us online at godspitcrew.org/donate, or give us a call at 434.836.4472 to give your gift.

If you have questions about how to donate appreciated securities, charitable trust giving, estate planning giving, or about any aspect of this project, please contact Rhonda Zola, VP of Advancement Operations at 434.836.4472 (extension 124)

Helping more people is God's Pit Crew's motivation in everything we do.
